# GoToData Services Overview

GoToData constantly collects, analyzes, and displays over a decade of corporate governance disclosure data on ALL listed companies in Japan so you can benefit from this data in the way that best suits you:

## ONLINE DISCLOSURE BROWSER AND DASHBOARD SERVICE

Test drive a demo version!
https://gotodata.jp/demo/

◇ Proprietary "QuickFind" Tool allowing easy/fast access to all Yuho, CG, Voting Report sections, with machine translation via Google Translate for all text

◇ Interactive Market Reports and Company Overviews providing the most important data in visual time-series. Chart/visual data can be downloaded. Company data is selected on per-company basis

◇ Screening Tool enabling users to quickly discover companies filtered by custom criteria (Addon Product)

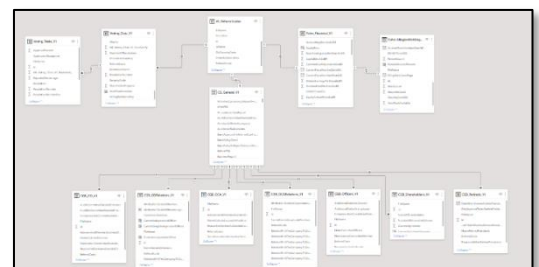

DATA DOWNLOAD SERVICE (FRONTEND API)

◇ Select and download all normalized disclosure items in GoToData's database through an easy-to-use web interface. This is a much larger range of data than for the GoToData disclosure browser

◇ Download full-text sections of the Yuho, CG Report, or Voting Results in addition to numeric disclosure. Downloads to CSV, Excel, etc.

◇ Can do bulk downloads of companies' normalized data using a list of security codes; or download data for all companies

◇ Perfect for more-in-depth analysis, academic researchers, and modelers

DIRECT DATABASE CONNECTION SERVICE

◇ Purchasable access to GoToData's entire database, which is updated twice daily to reflect the most recent disclosure

◇ Includes direct disclosure data including text as-is in addition to BDTI's standardized/structured data, allowing both easy modeling and AI analytical methods for back-testing

◇ Millions of datapoints available to enhance your investment/data strategies

CUSTOM PROJECTS AND ADDITIONAL SERVICES

◇ In-depth reporting on firms using GoToData's vast database coupled with decades of CG experience

◇ Custom reports / data collection/ data distribution tailored to your needs

◇ Normalized database for all board members and executives, allowing identification of potential hires or over-boarded directors, or analysis of impact of board composition over time

◇ Allegiant holdings mapping to disentangle the cross-shareholding web

◇ And more…
